Let us start with our  
Project

The first step is to take the Sunvisors off the Rod. You don't have to unscrew it like the part we show you here. The Sunvisor is only pushed on the rod. You can pull it off the rod! It feels hard to do, but don't worry, we did it 100 times...

# TOP CLASSIC CARS LLC & TOP CLASSIC PARTS LLC

Take off the old broken mirror. Don't worry to break it. The Mirror Bottom Part is fixed with 6 screws with the Sunvisor. Keep the screws save, you need them again to fix our new designed mirror at the same spots.

# TOP CLASSIC CARS LLC & TOP CLASSIC PARTS LLC

Our new bottom part needs to get screwed in your Sunvisor with the six Philips screws

# TOP CLASSIC CARS LLC & TOP CLASSIC PARTS LLC

Start with the 2 interior screws. They must connect the eyelet connectors of the new light system with the contacts in the middle of the Sunvisors.

## Installation Hint

Mercedes wired the Sunvisors electric different at the left and right side. We had to produce left and right sided Vanity Mirrors, because our LED's need positive and negative poles connected at specific sides. We mentioned now that Mercedes sometimes mis wired it either. So please check after you have screwed in the 2 power eyelets, that the light works. If not, you have only to change the left and right eyelet wires. Sorry about it. We made them to fit exact as the Mercedes WIRE Diagram describes...

The next step is to click the middle piece with Mirror and Lenses and the preinstalled lid in the bottom part of your new mirror set.

# TOP CLASSIC CARS LLC & TOP CLASSIC PARTS LLC

Start with the upper side  
of the Sunvisor first!  
Please be careful with  
the lever of the switch.  
Put the clips in a 45  
degree angle in the  
holes of the bottom part.

# TOP CLASSIC CARS LLC & TOP CLASSIC PARTS LLC

Then push the 2  
mirror parts very  
carefully in the  
openings of the  
bottom part

# TOP CLASSIC CARS LLC & TOP CLASSIC PARTS LLC

Then you are done! Push the sunvisor again on the rod, and you can use your mirror with our strong LED lights again. That's it!

**You will need less then 5 minutes to replace one Mirror.**

# TOP CLASSIC CARS LLC & TOP CLASSIC PARTS LLC

Our new Sunvisor Vanity Mirrors fit exact in the genuine place, and are made much stronger in the hinges!

*Left and right mirrors are wired different, if you use our LED upgraded full version*
